Editorial

Faithful to its tradition spanning more than 100 years, Roger Pradier® continues to work with unrelenting passion and dedication to light up your everyday outside spaces. Our outstanding know-how in the production of outdoor lighting is widely recognised and has earned us an “Entreprise du Patrimoine Vivant” mark from the French State. We are all very proud to belong to this select fraternity of manufacturers of products of the highest quality and we are thoroughly convinced that our continued mastery over our production processes is the key to our future.

Our stringent quality standards for our lighting products are our answer to the challenges of tomorrow, with timelessness of designs and durability of products fast becoming a necessity in a world that must transition towards greater sustainability. Local production is also a key aspect, with proximity and short supply chains among the best ways of significantly limiting our impact on the environment. Roger Pradier® continues to follow this approach, with the inauguration of a new extension of our Châteauroux factory that will feature a “zero defect” painting facility among other things.

In 2022 we also plan to make it possible for customers to order our lighting products online directly from the roger-pradier.com web site. This scheme that we are implementing for mainland France puts our partner stores at the very heart of the e-commerce process, which we want to make as hands-on as possible; customers will thus be able to collect their orders from the partner stores, and Roger Pradier® will continue to recommend that you go talk to them so as to jointly find the best solution to your projects.

In order to underpin our plans for growth, we will be expanding our team once again through the creation of new roles in our organisation. Jean-Michel Vergain will thus be joining us as Managing Director. We are delighted to welcome him and look forward to pursuing our journey together with him, and with you!

Tristan De Witte - *CEO*

Roger Pradier® warranties

25 year anti-corrosion warranty

The Roger Pradier® company commits itself to replace any faulty part that shows sign of corrosion in a period of 25 years from the date of acquisition by the final client, upon presentation of the purchase invoice.

The guarantee applies only to the aluminium part of Roger Pradier® products installed above ground in accordance with industry standards and with the original surface treatment being intact.

Exclusions: products that are scratched, scored, covered with silicone, cement, or any other material, or that have suffered collision or various chemical treatments. This guarantee also excludes any phenomenon that may modify the aspect of the covering over time, natural dirt, deposits of all types, etc...

The warranty requires the product(s) to be returned to the factory. No exchange prior to that return can be considered. Roger Pradier® will only replace the damaged part and not the whole appliance; transport, dismantling and installation costs are excluded.

The Roger Pradier® company reserved the right to analyse or to have analysed, by any method of its choice, the damaged caused by corrosion, in order to determine the reliability and the conditions of the said damage. In any event, this guarantee does not apply to the various electrical components and accessories of the product.

5 year technical warranty

Other than the specific 25 years anti-corrosion warranty, Roger Pradier® products are guaranteed for 5-years. The technical warranty covers over a 5-years period from the date from the acquisition date by the final client, upon presentation of the purchase receipt. This warranty shall only apply to products installed according to current practice and which are used in conformance with our recommendations. Any intervention or modification made to the product and its components is expressly excluded from this warranty.

The warranty requires the product(s) to be returned to the factory. No exchange prior to that return can be considered. Roger Pradier® will only replace the affected component(s) and not the whole appliance; transport, dismantling and installation costs are excluded.

Roger Pradier®’s sales commitment

- A century's worth of experience as a French manufacturer of outdoor lighting devices
 - Widely acknowledged expertise
 - A culture of quality
 - External inspections
 - International certifications.
- Refer to the US catalogue for UL-certified references.

Each reference is a complete product.

Bulbs are not included.

All standard Roger Pradier®’s electrical plugs are Schuko type F (mobile models).

Models in brass or copper are provided with black aluminium supports.

The steel supports are not covered by the anti-corrosion warranty.

The coating of brass, copper, zinc, stainless steel, galvanized or enamelled steel models can deteriorate depending on the climate or the environment. These materials are not guaranteed against oxidation. It is recommended to regularly maintain the light fixtures in accordance with the practices of the profession and to prohibit the use of any abrasive or corrosive material or product.

Our terms of sale are listed on the back of our delivery notes and bills.

As part of its constant strive to improve the quality of the light fixtures, Roger Pradier® reserves the right to modify, without notice or compensation, all or part of the equipment presented in this catalogue.

The images, dimensions and scenarios in the photographs in this catalogue cannot be regarded as contractual.

Roger Pradier® is committed to complying with the new regulations against light pollution. In France in particular, the Decree of 27 December 2018 on the prevention, reduction and limitation of light pollution regulates lighting practices. Since 1 January 2020, these provisions apply to «light installations» in order to be consistent with today's environmental issues.
