## TOMDIXON.NET

The Tom Dixon website is the fastest, easiest way to see all our products and access the professional information you need. You can find technical specifications, CAD files, silhouettes and a huge library of high res images.

The website has a host of tools and features. Mix and match table tops and bases using the table configurator. See our upholstery in different coloured fabrics. Choose from our collection of pre-configured pendant systems. You can also be inspired and see our products in situ by browsing our library of Spaces.

## TOMDIXON.NET/TRADEINFO

The Trade Info portal is another online platform tool available for all Tom Dixon related sales and marketing tools. From detailed product information to look books, press releases and brand assets, the Trade Info Portal offers a wealth of information.

## SERVICE OFFER

In 2022, Tom Dixon have introduced a new program to drive a faster order to delivery service. The range is now clearly structured into three service offers; Quickship, Collection and Tailor Made.

### QUICKSHIP

#### Furniture, Lighting & Accessories

- Best sellers
- Always available in our warehouse
- Immediate delivery
- Never out of stock

### COLLECTION

#### Furniture, Lighting & Accessories

- Made-to-stock
- Upholstery Furniture
- Made-to-order
- 5 fabrics in 4 colours
- Extended delivery lead time: two months

### TAILOR MADE

#### Furniture

- Upholstery Furniture
- Made-to-order
- Larger choice on fabrics and finishes
- Estimated delivery lead time: four months
- Contract projects

## VIGNETTE PROGRAM

This year, Tom Dixon presents two Vignette display concepts incorporating Melt, Wingback, Fat and Flash which are available now. To meet with demand, we have created a Quickship service offering to give everyone an opportunity to experience Tom Dixon's bestselling families and ensure the brand is represented consistently around the world.

# GLOBE CONE FLOOR LED

You can probably tell that we are obsessed with spherical objects. In our perpetual quest for the purest forms, Globe stands out as the most minimal of the lot. A spherical orb, highly mirrored and perfectly reflective during the day, when switched on reveals a multiplicity of internal reflections from the integral LED. Also available in a non-metallised opalescent finish.

Year of Design	2019
Finishing Process	Semi-Metallised or Tinted
Environment	Indoor, IP20
Product Weight	7.00kg
Cable Spec	H03VV-F 2 x 0,75 mm <sup>2</sup> PVC-PVC
Cable Type/Length	Black Fabric, 250cm
Light Source	6W LED, Light Source Included, 220-240V

# MELT FLOOR

OFF

ON

Melt is evocative of molten glass, the interior of a melting glacier or images of deep space. An imperfect, organic and naturalistic light that produces a mesmerizing hot-blown glass effect. Melt is created through a process of blow moulding and vacuum metallisation to achieve melted orbs with abundant and unusual luminosity.

<b>Year of Design</b>	2015
<b>Finishing Process</b>	Semi-Metallised, Plated
<b>Environment</b>	Indoor, IP20
<b>Product Weight</b>	10.71kg

# MIRROR BALL STAND CHANDELIER

Sometimes your biggest failure could be your biggest success. The aim for Mirror Ball was to produce a completely spherical, highly mirrored object that would disappear into its surroundings. Instead it does the opposite and is an ultra-visible, highly reflective object referencing space helmets and disco balls.

Year of Design	2016

# PRESS SURFACE LED

OFF

ON

Press is a series of lights made from the thickest and most transparent glass with a satisfyingly rounded linear surface detail. The ribbed glass creates diffusion of the light source and projects linear and stripy patterns. Bold in silhouette and simple in function they are manufactured by dropping massive globs of molten glass at 1,200 degrees centigrade, pressed in iron moulds under tons of pressure to create immensely durable lights.

Year of Design	2020
Finishing Process	Pressed

<b>Fitting Colour/Finish</b>	White, Polished

# VOID SURFACE LED

Inspired by vacuum flasks, Void is made from pure metal which is formed into a complex double-walled shade. A small but powerful upgraded LED module deep inside the lamp creates a soft but directional light beam, while the exterior is polished to a highly reflective finish. Available in Pendant and Surface light versions.

Year of Design	2020
Finishing Process	Spun, Hand Beaten
Environment	Indoor, IP20
Product Weight	2.70kg
Light Source	6W LED, Light Source Included, 220-240V
Max Wattage	9W
Lumens	800
CRI	>90
Colour Temperature	3000

# GLOBE 25CM LED

You can probably tell that we are obsessed with spherical objects. In our perpetual quest for the purest forms, Globe stands out as the most minimal of the lot. A spherical orb, highly mirrored and perfectly reflective during the day, when switched on reveals a multiplicity of internal reflections from the integral LED. Also available in a non-metallised opalescent finish.

Year of Design	2019
Finishing Process	Semi-Metallised or Tinted
Environment	Indoor, IP20
Product Weight	1.09kg
Ceiling Rose Shape/Diameter	Cone, 11.5cm / 4.5in cm
Cable Spec	H03VV-F 2 x 0.75 mm <sup>2</sup> PVC-PVC

# GLOBE BURST CHANDELIER LED

Large in scale and highly reflective, Burst is an extraordinary chandelier made up of 12 spherical orbs which explode from a single point construction. With its chrome, copper or opalescent aesthetic and geometric configuration, this enormous lighting fixture is of heroic proportions and impossible to ignore. Highly mirrored and perfectly reflective during the day and when switched on reveals a multiplicity of internal reflections from the integral LED. Also available in a non-metallised opalescent finish.

# MELT LED

Melt is evocative of molten glass, the interior of a melting glacier or images of deep space. An imperfect, organic and naturalistic light that produces a mesmerizing hot-blown glass effect. Melt is created through a process of blow moulding and vacuum metallisation to achieve melted orbs with abundant and unusual luminosity. The Melt family is available with a new custom-made Tom Dixon LED module.

Year of Design	2014
Finishing Process	Semi-Metallised
Environment	Indoor, IP20

# SPRING LARGE LED

Spring is a series of pendant lamps made up of stainless-steel strips. Pliant ribbons of stainless steel have been arranged like a whisk around our custom-made dimmable Tom Dixon LED module. The semi-transparent shape thus created can be adjusted to a variety of silhouettes - from a flat arrangement reminiscent of a spirograph drawing, to a flying saucer configuration, and on to a fuller shape akin to a pumpkin. The nature of the spiral design allows the voluminous shades to be easily flat-packed for transportation.

Year of Design	2018
Finishing Process	PVD
Environment	Indoor, IP20
Product Weight	3.85kg
Ceiling Rose Shape/Diameter	Dome, 19cm
Cable Spec	H03VV-F 2 x 0,75 mm <sup>2</sup>

# VOID LED

Inspired by vacuum flasks, Void is made from pure metal which is formed into a complex double-walled shade. A small but powerful upgraded LED module deep inside the lamp creates a soft but directional light beam, while the exterior is polished to a highly reflective finish. Available in Pendant and Surface light versions.

Year of Design	2009
Finishing Process	Spun, Hand Beaten
Environment	Indoor, IP20
Product Weight	2.66kg

# VOID MINI LED

Inspired by vacuum flasks, Void is made from pure metal which is formed into a complex double-walled shade. A small but powerful upgraded LED module deep inside the lamp creates a soft but directional light beam, while the exterior is polished to a highly reflective finish. Available in Pendant and Surface light versions.

## PENDANT SYSTEM INFORMATION

### Bespoke Pendant Systems

You can order a bespoke pendant system as long as your order abides by the following constraints:

Round surface mount	20kgs (44.09lbs)
Linear surface mount	20kgs (44.09lbs)
Mega surface mount	52kgs (115lbs)

### Round and Linear Surface Mount

Made from laser cut steel and vacuum formed plastic, the Pendant System is a mechanically engineered complete lighting solution for suspending multiple Tom Dixon lighting configurations and conceals unsightly wiring.

**Maximum quantity of pendants per ceiling surface mount: 6**

### Mega

The Mega ceiling surface mount is made from an aluminium plate with a raw, industrial style finish, offering up to 215 hole positions. Each style can be customised by simply drilling a hole in the desired position.

**Maximum quantity of pendants per ceiling surface mount: 19**

### Installation

To assist with installation, the surface mounts have etched hole markings with easy to follow co-ordinates, allowing for a flexible positioning of pendants within a cluster.

Detailed plans of the configurations and co-ordinates for multiple product clusters are available to download directly from the Tom Dixon website. In addition, all of our surface mounts can be primed and painted to compliment any interior environment.

## ELECTRICAL CLASS (NON-UL PRODUCTS ONLY)

	Class I (Earthing)	Protection against electric shock is provided by an (Earthing) conductor. This prevents accessible conductive parts from becoming live in the event of a failure of the basic insulation.
	Class II (Double Insulated)	Double or reinforced insulation is provided as protection against electric shock. No provision for protective earthing or reliance upon installation conditions is required.
	Class III (SELV)	Protection against electric shock relies on supply at safety extra-low voltage (SELV). Voltages higher than those of SELV are not generated.

IP RATING	
EU / CB / CCC Version	UL Version
<b>IP20 - Solid-object proof</b> The minimum standard of ingress protection for lighting products. Protection against solid objects only	<b>Dry Location</b> A location not normally subject to dampness
<b>IP44 - Splash-Proof</b> Suitable for bathroom Zone 2 and covered outdoor areas	<b>Damp Location</b> Interior or Exterior location that is periodically subject to condensation or moisture
<b>IP55 - Jet-proof</b> Suitable for bathroom Zone 2 and uncovered outdoor areas	<b>Wet Location</b> A location in which water or other liquid can drip, splash or flow on or against the product

**Tom Dixon lighting is not suitable for extreme conditions such as particularly dusty environments, acid rain or continuous direct sunlight**

CERTIFICATION		
Name	Alternative	Description
Leading Edge	Forward Phase / TRIAC	AC Mains voltage. Original and most common household dimming method. Commonly used on incandescent lighting
Trailing Edge	Reverse phase / ELV	AC Mains voltage. Electronic dimming designed for LED lighting
0-10v		Uses a signal of 0-10V to control dimming function. Common in commercial applications. Not currently offered by Tom Dixon
DALI		Digital addressable lighting interface. Uses an additional pair of wires to digitally control each light fitting independently. Not currently offered by Tom Dixon

## LED

In 2022 we introduce the latest in high performance LED technology to our expanding lighting range. A new and improved Tom Dixon LEDRING module and TRIAC dimmable driver has been integrated into our existing best sellers MELT, SPRING, OPAL and GLOBE and launches into collections VOID LED, PRESS and BEAT LED along with two MELT Chandeliers and the colossal BURST chandelier.

VOID LED, BEAT LED and every light incorporating the Tom Dixon LEDRING have been meticulously engineered, to exceed the stringent requirements of the California Energy Commission Title 24, requirements for High Efficacy light sources.

Additionally all Tom Dixon lights featuring the LEDRING are serviceable and replacement LEDRINGS and drivers are available if needed. Although, with a life span of 50,000+ hours, when used an average 4 hours a day, you won't need to replace them for over 30 years.

Please visit [Tomdixon.net](http://Tomdixon.net) or speak to our customer service team for replacement serviceable parts.

# MASS CONSOLE TABLE

The new and improved super-polished solid brass Mass Console table is manufactured in the UK and made from one single extruded box section of brass. By using the most familiar unit in furniture construction - the plank - and presenting a series of familiar objects in a highly polished gold hued metal, Tom Dixon manages to make domestic archetypes into monumental heavyweight sculpture.

Code

# STONE TABLE

A set of three crisp and smartly detailed side tables available in square, circle and rectangle designs. The new Stone Tables are available with a glossy black base and a stone top made of colourful marble mined from the Shandong and Fujian provinces of China. The pattern of the natural marble is due to the crustal movement changes in the process of lava extrusion, developed over millions of years.

**Year of Design** 2019  
**Product Weight** Circle - 21.80kg, Rectangle - 15.10kg, Square - 45.20kg  
**Service Offer** Collection

# PYLON CHAIR

Originally created on a self-propelled mission to design the world's lightest metal chair, Pylon was made in a small series in Dixon's metal workshop in the early 90's. The lattice work of 3mm diameter steel rod is triangulated for maximum strength - an exercise in pure unadorned structure.

Code  
PYC01W

€6.615,00

# SLAB BAR STOOL

Slab is a robust collection which celebrates the natural beauty of oak. Each piece has generous proportions, solid materiality and is softened with a gently radius edge. The Slab family is made from solid oak, sourced from sustainably managed forests. The surface of the wood is deeply brushed to expose the grain, available in a natural finish or a black lacquer.

**Year of Design** 2009  
**Product Weight** 8.40kg  
**Testing Certification** BS EN 16139: 2013 Level 1

# BIRD CHAISE

The very rare and unusual furniture typology of the rocking chaise longue is explored here in a monolithic form, carefully balanced to encourage a gentle rocking motion with its gentle curves and reduced silhouette. The Bird Chaise is a bold sculptural statement that is destined to bring extra colour and shape, movement and comfort into lobbies, breakout areas and homes.

# S CHAIR

Born in Tom's 80's London workshop, the S Chair has been re-engineered. The original three-dimensional form is now moulded in an industrial hard/soft form with a pure wool cover. The instantly recognisable serpentine curves are now more comfortable and ergonomically active than ever. It sits proudly on its steering-wheel inspired cast iron base.

# WINGBACK CHAIR

Wingback was inspired by traditional 17th century Wingback and balloon-back archetypes, and was developed for Shoreditch House Member's Club. Its expressive sweeping curves allows designers to specify Wingback in the centre of spaces as a sculptural intervention rather than merely a piece of seating. The wings provide convenient acoustic protection for mobile phone use and a headrest for quick snoozes.

 Natural (NA), Black (BL)

For colour codes, see Upholstery Guide

# WINGBACK SOFA

Wingback was inspired by traditional 17th century Wingback and balloon-back archetypes, and was developed for Shoreditch House Members Club. Its expressive sweeping curves allows designers to specify Wingback in the centre of spaces as a sculptural intervention rather than merely a piece of seating. The wings provide convenient acoustic protection for mobile phone use and a headrest for quick snoozes.

Year of Design	2007

## KVADRAT

Danish textiles house Kvadrat's versatile collection represents a commitment to colour, simplicity and design. Hero is a woven textile with a felt like surface, which is smooth and directionless. Nanna Ditzel's Hallingdal 65 is a durable fabric constructed of wool and viscose. The wool provides flexibility whilst the viscose adds depth to the colour. Divina Melange 3 is a vibrant piece-dyed woollen upholstery textile reminiscent of felt. Cheerfully simple, it comes in a fresh, versatile palette by artist and designer Finn Sködt. Melange Nap is soft yet hard wearing and is constructed with a unicoloured and melange yarn, which creates a graphic pattern of tiny dots that play across the surface. Designed by Febrik, Gentle 2 is the only knitted stretch velvet upholstery textile on the market. Gentle 2 features a rich surface with an elegant shine.

## TAILOR MADE FABRIC AND LEATHER

For all Tailor Made Fabric (TMF) or leather (TML) upholstered items, a fabric sample is required to be sent to the factory to be tested and approved for upholstery in advance of order placement and confirmation. This will incur an increased lead time by approximately 2 weeks.

It is the responsibility of the Customer to ensure the selected material is suitable for the intended environment. Tom Dixon cannot take any responsibility for the performance of the material or any improper use. It is the responsibility of the Customer to ensure they follow the Care & Maintenance guidelines provided by the manufacturer. Seek further advice from the fabric supplier where required.

We have over 100 pre-approved fabrics for our products. Please contact Customer Services for more information.

[customerservices@tomdixon.net](mailto:customerservices@tomdixon.net)

### Guidelines for domestic use

Fabrics must be match resistant. It is the responsibility of the Customer to advise if the TMF or TML fabric supplied is inherently match resistant, or will need chemical flame retardant treatment. The upholstery composite (lay up of fabric cover, any interlines and the filling assembly) must be cigarette resistant. It is the responsibility of the Customer to advise if the TMF or TML material supplied is inherently cigarette resistant, or will need chemical flame retardant treatment.

### Contract Use

The fabric cover and upholstery composite must be match resistant and cigarette resistant. In addition, the upholstery composite must be larger flame source resistant, depending upon the environment the upholstery is placed into. It is the responsibility of the Customer to advise the specific non domestic usage requirements and to advise that the TMF or TML fabric supplied meets the requirements. Any other regional requirements will need to be agreed in advance of order placement. All test certificates must be sent to Tom Dixon for approval in advance of order placement and confirmation.

If TMF/TML testing is required, more details can be provided to you by our Trade Services or Sales Teams.

N.B. Please include your Tom Dixon Order Reference Number otherwise delays will be incurred.

# CARE AND MAINTENANCE

## GENERAL INFORMATION

These maintenance tips are purely recommendations and cannot guarantee 100% stain removal. Please consider the properties of the high quality natural material and ensure that appropriate care is taken to maintain the long lasting beauty of your product. For further details please contact your Sales Representative.

## LIGHTING

### Metallised Polycarbonate

Metallised polycarbonate products are only guaranteed against non-aggressive atmospheric conditions and therefore must only be stored and installed in temperature controlled environments to preserve the quality of the product. Clean with a soft dry cloth only. Do not use polishing agents, water or abrasive materials. Always switch off the electricity supply before cleaning.

We adhere to specific European Directives (such as "The Restriction of Hazardous Substances Directive" (RoHS) 2002/95/EC) and certain safety standards required by the international marketplace (British and European IEC standard, UL rating).

### LED Care

When cleaning/servicing LED products, avoid touching LED chips and other exposed electrical components with bare hands. Direct contact can lead to increased wear and a shorter product lifespan.

### Dimmability

Lighting stating the term dimmable, means it has compatibility tested and verified to work with a variety of common, mains voltage, off the shelf, LED (Trailing edge) and/or non-LED (Leading edge) dimmer switches.

Correct installation with other dimming and building management systems such as DALI, KNX, 1-10V, 0-10V will require separate advice from the specific systems expert.

## FURNITURE & UPHOLSTERY

### General Care Advice

Avoid exposing products to excessive heat e.g. by placing in front of a radiator, as this can cause cracking. A minimum 30cm clearance from heat source is advised.

### FURNITURE

#### Cork

Cork is a natural material, and although the surface of our products has been treated with an oil, great care should be taken to ensure its longevity. Spills should be wiped and cleaned immediately, especially oils and wine as these will leave marks if left. Regular wiping with a damp cloth and occasionally with a mild detergent will keep the table in good condition. As the material is made from granules of cork, heavy use or mistreating the surfaces can lead to cork coming loose and leaving visible dents or gaps. Colour variation in the granules is normal and to be expected. Some lighter granules will be visible and some components may appear slightly lighter or darker than others due to this. Avoid placing hot items directly onto the surface; always use a trivet.

#### Marble

Marble is an exceptionally porous natural material and greater care must be taken with it. Avoid wine, oil based products and foods, vegetable and fruit dyes or acids coming into direct contact with the surface. Please be aware that Marble will have some natural occurring variations in colour and veins and fissures which will display the natural inherent behaviours of the material and are not covered by our returns policy. As a natural product, no two pieces will be exactly alike.

#### Wood

Please be aware that colour and grain variations will occur naturally. All timber will display movement from season to season due to changes in atmospheric pressure and humidity. We do not recommend leaving products in excessively high or low temperatures. Direct sunlight will cause the colour of solid or painted wood to change. This will be more readily apparent when placed directly under a window.

### UPHOLSTERY

Please see [www.kvadrat.dk](http://www.kvadrat.dk) for care and cleaning instructions.

### Velvet

Velvet will acquire its unique appearance after some time due to usage and the natural humidity of the surroundings. Pressure marks, rolling stripes and smaller irregularities, which are inherent for the product, will disappear in a ventilated and relatively humid environment. Pressure marks/creases/dents are difficult to avoid, even if the textile is handled carefully & correctly. This is a typical property of velours/velvets and it is not considered a defect nor a sign of low quality. Velours/velvets are generally more sensitive to incorrect handling than woven textiles. Please contact Customer Services for more information on how to care for velour/velvet fabrics.

### Wool

Daily care and immediate stain removal will ensure that your wool upholstery will keep looking good for many years to come. It is normally sufficient to regularly vacuum and air furniture upholstered in wool fabric. However, it is a good idea to clean the wool fabric occasionally. Use an approved wool shampoo and follow the instructions carefully. Take care never to saturate the wool fabric. Never use undiluted cleaning agents, bleaching agents, ammonia or soap intended for hard surfaces.

## ACCESSORIES

### FOOD SAFE

Where appropriate accessories products are food safe tested to BS and EN standards, therefore generally suitable for worldwide use barring some country specific deviations. For all our items that are used with food, rinse with warm soapy water before use.

### Metal

Where suitable we leave the metals un-lacquered allowing the material to develop a unique and rich patina through the natural process of oxidisation, which we believe enhances the beauty of the product. The rate at which a patina develops will vary according to how it is handled and the environmental factors such as humidity in the atmosphere. For all our items that are used with food, do not let the brass or copper form verdigris, which is formed when brass or copper undergoes long-term natural oxidisation or is exposed to acidic conditions over time. Verdigris is bright green in colour, and must be completely cleaned off before the item is used.

- Hand wash with warm soapy water. Do not use in a dishwasher or microwave.
- After use, rinse in warm water. Do not leave submerged in water.
- Never use abrasive cleaners or brushes that damage the surface.
- Dry with a soft cloth, inside and out.

### Brass

Brass, similar to silver, will oxidise naturally in air over time. Humid conditions and moisture will accelerate the process of oxidisation. We believe the patina and ageing process adds beauty and richness to the product. Brass is a soft, malleable alloy metal and should always be treated with care. As the product is used, it will display marks such as scratches, tarnishing and dents; this is normal and to be expected. Salts and oils from skin may also mark the metal surface. The product has been polished and treated with a wax coat to protect from marks and moisture during the transit and installation process. This treatment will offer some protection against fingerprints and certain liquid spills in the first few weeks of use. Any spills or marks should be immediately cleaned, as per the instructions supplied with the product. The wax coat will disappear over time, allowing the brass to patina naturally with use, as is the intention. Please contact Customer Services for more information on how to care for your Mass product.

### Copper

Copper will develop a natural patina as it oxidises, we believe that this enhances the beauty of the product as it is the nature of the material. If you do not want your product to have a patina finish, you may wish to use a metal polish. However, please be aware that this will alter the original finish of the product.

### Stone and Marble

As a natural material, each piece will be unique and may have a small degree of colour variation and pitting. Grey is the most common variation for white marble but there may also be yellow, brown and green tones. Green marble varies from light to dark tones, with brown, black and various other coloured streaks visible. Black marble commonly has grey and white tones within it. All our marble items are handmade and variations will occur from piece to piece. Commercially available stone cleaners or baking soda may be used to remove stains from the

## CARE AND MAINTENANCE

---

marble. If using stone cleaner, follow the manufacturer's instructions carefully.

All stone has a degree of porosity therefore strong colours will stain such as beetroot, turmeric and red wine etc. High acidity fruits such as lemon and lime should not be left for any length of time on any stone surface as the acid will eat into the surface of the marble and may leave an indentation.

Hand-wash in warm soapy water.  
Never use abrasive cleaners or brushes as this will damage the surface.  
Do not leave submerged in water for extended periods of time.

### Wood

Our oversize vessels, Stack should be used for decorative purposes only.

- Avoid leaving in direct sunlight.
- Wipe with a damp cloth and dry with a soft cloth.
- Not watertight. If chipped, the natural colour will be exposed.

### Glass

Many of our glass products are mouth blown into our specifically designed moulds, and finished by hand.

- Wipe with a soft, damp cloth.
- Do not use abrasive cleaners, as these will damage the surface.

### SCENTED CANDLES AND DIFFUSERS

Your candle will burn clean and evenly down to the bottom of the vessel if you take the following steps:

- After extinguishing the flame, if necessary, centre the wick in the liquid wax.
- To enjoy best diffusion and burning, you need to burn the candle for a maximum of 2 or 3 hours at a time, or until the whole top of the candle turns to liquid. It is essential to cut the wick short (1/4 inch) before relighting the candle to avoid unnecessary smoke.
- Do not place the candle in a wind draught or directly on a glass, wooden or marble surface. Never leave a burning candle unattended.
- Never move or tip a burning candle. Always burn on a flat and stable surface. Keep out of reach of children and pets.
- The scented candle vessels are designed to be used after the candle has finished burning. To remove any remaining wax, simply submerge the vessels in hot, soapy water and apply a soft sponge or brush lightly to clean.
- Candles should be stored at room temperature
- Transported where possible in a controlled temperature
- Must be transported the right way up
- The Scented Diffusers will remain fragrant for approximately 12 weeks depending on location and temperature.

# TERMS AND CONDITIONS

# TERMS AND CONDITIONS

---

Design Research Limited t/a Tom Dixon (the Company) agrees to sell its goods on the following terms:

## 1 PRICING TERMS

1.1 This price list is valid from 1 April 2022 and supersedes all previous lists.

1.2 Prices are provided for indicative purposes only, and are based on economic conditions and the best knowledge of the Company at the time of publication. The Company reserves the right to change list prices at any time and on any product without prior notification.

2 WARRANTIES

2.1 This Contract constitutes the entire agreement between the Company and its customers (the Customer) for the sale of Goods. The Customer acknowledges that it has not relied on any statement, promise, representation, assurance or warranty made or given by or on behalf of the Company which is not set out in the Contract.

2.2 Any samples, drawings, descriptive matter, or advertising produced by the Company and any descriptions or illustrations contained in the Company's catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Goods described or depicted in them. They shall not form part of the Contract or have any contractual force.

2.3 The Customer shall be responsible for inspecting Goods upon delivery and it is a condition of the Contract that any shortage or defect in Goods at delivery is notified to the Company in writing together with photographic proof within 5 Working Days from the receipt of Goods.

2.4 A three-year limited warranty against manufacturing defects is offered on all furniture and lighting Goods (materials and construction). A one-year limited warranty against manufacturing defects is offered on all other Goods. Normal wear on fabrics and finish, as well as indirect damage to persons or articles is not covered by this warranty. Where a defect has been notified, the Customer will, if so requested by the Company, return the Goods to the Company at the Customer's expense. If the Company subsequently confirms that the returned Goods contain defects attributable to the Company, the reasonable costs of re-delivery incurred by the Customer will be refunded.

2.5 The warranties given above will not apply to defects that are due to fair wear and tear, accidental damage or failure by the Customer or any third party to adhere to the Company's instructions or written recommendations.

2.6 Any modifications made to the product by the Customer will void the warranty.

## 3 INSTALLATION

3.1 All our lights are for indoor use only. They should be installed by a qualified electrician. Installation must be carried out in accordance and compliance with current building regulations.

3.2 Because of the variety of different ceiling types and construction the Company cannot advise on fixings. Please check the type of ceiling construction you have and use appropriate fixings that are suitable for the weight of the light being installed.

3.3 Please note replacement bulbs should be in accordance with recommendations in the product instructions.

## 4 PRICING

4.1 Prices charged will be the current list price on the day on which the purchase order is placed unless otherwise stated in writing by the Company. The Company reserves the right to change list prices at any time and on any Goods without prior notification.

4.2 Quotations provided by the Company shall be valid for 30 days only. Any purchase orders placed before a change to the price list is published must be collected or delivered in full within 15 days of the order failing which the order will be cancelled.

4.3 Unless otherwise stated in the Contract, prices are quoted exclusive of value added tax and sales tax, carriage and freight which will be payable in addition. The Company accepts no responsibility or liability for any taxes, duties, delivery fees or other fees which the Customer may be required to pay in relation to the Goods, and the Customer shall be solely responsible for paying any such required fees or taxes.

## 5 ORDERING

5.1 All Customer orders, other than for made-to-order items, are to be placed via the Tom Dixon Trade Portal ([www.tomdixontrade.net](http://www.tomdixontrade.net)).

5.2 Where requested, certificates of origin can be provided at the Customer's expense, for a fee of £100, €120, \$120 (USA & Asia) whichever is applicable.

5.3 All orders placed with the Company are picked and dispatched on an individual basis. Unless otherwise agreed between the parties, the Company shall not facilitate the consolidation of customer orders.

5.4 Orders will only be considered placed once a formal receipt of confirmation of order has been provided by the Company (Order Confirmation). Order Confirmation is final and binding. Any subsequent change or cancellation is subject to the Company's consent.

## 6 SHIPPING AND HANDLING CHARGES

Without prejudice to the generality of the foregoing, for Orders with an invoice value greater than the Minimum Order Sizes (MOS), Prices are inclusive of shipping. For orders below the MOS, a shipping/handling fee will be applied, as outlined in Table 1A and Table 1B.

# TERMS AND CONDITIONS

TABLE 1A

Region	Details	Currency	Minimum Order Size	Shipping/han-dling fee if below MOS
UK	Deliveries within the UK	Pound Sterling	£850	£85
Europe	Deliveries within the European Union	Euro	€1,100	€110

TABLE 1B

USA	Zone States	Min. Order Size	Freight Shipping Charge	Parcel/Ground Shipping Charge
Shipping Zone 1	NJ, NY, CT	\$1,500.00	\$150.00	\$35.00
Shipping Zone 2	AL, AR, DC, DE, FL, GA, IA, IL, IN, KY, LA, MA, MD, ME, MI, MN, MO, MS, NC, NH, OH, OK, PA, RI, SC, TN, TX, VA, VT, WI, WV	\$2,000.00	\$200.00	\$50.00
Shipping Zone 3	AZ, CO, ID, KS, MT, ND, NE, NM, NV, OR, SD, UT, WA, WY, CA	\$2,500.00	\$250.00	\$65.00

## 7 DELIVERIES

7.1 The Company shall make all reasonable efforts to deliver all Goods within the period stated in the Confirmation of Order, however such periods are stated for indicative purposes only. The Company shall not bear any liability for any delay in delivery, and time shall not be considered of the essence in this regard.

7.2 For stock Goods, the Company aims to deliver within 7 Working Days within the UK, and within 21 Working Days across the EU and the United States.

7.3 All items are stock Goods, unless otherwise indicated. For non-stock Goods, specific lead times may be specified next to the product in this price list and the Tom Dixon Trade Portal.

7.4 The Company only delivers to commercial addresses. Each account holder may register up to three commercial addresses with the Company. For shipments to any other commercial addresses, where applicable (Drop Ship) or orders below the MOS, an additional Drop Ship administration fee will be charged by the Company. This fee shall be £100 in the UK and €120 in the EU, and \$120 in the United States.

8 EX-WORKS ("EXW") AND CUSTOMER'S OWN ACCOUNT ("COA") SHIPPING, HANDLING AND ADMINISTRATIVE CHARGES

8.1 All Customers outside the EU, and the United States must collect orders on EXW terms, as defined by the Incoterms® rules in force from time to time.

8.2 All export documentation (including commercial invoices and delivery notes) will be supplied by the Company. All carrier correspondence and collections shall be arranged exclusively by the

8.3 For orders below the EXW MOS, an EXW handling fee will be charged as set out in Table 3.

8.4 All EXW collections must take place within a defined pick-up period, or incur a daily handling fee, as outlined in Table 2.

8.5 EXW Orders not picked up within 10 Working Days from the collection date notified to the Customer from the UK or United States warehouses will be subject to a daily storage fee commencing on the 11th Working Day from the collection date as set out in Table 2. Orders not picked up within 20 days from the initial collection date will be restocked and a restocking fee charged as set out in Table 2.

8.6 The Company shall bear no responsibility or liability for any loss or damage incurred during transit by EXW carriers. Orders must be checked by the Customer upon collection.

8.7 For orders below the Customer's Own Account (COA) minimum order size, a COA handling fee will be charged as set out in Table 2.

8.8 Any shortages or damages must be reported by the Customer to the Company within 5 Working Days of delivery and accompanied with photographic evidence

TABLE 2

Region	Currency	EXW Minimum Order Size	Handling fee	Pick up period (business days)	Daily storage fee per pallet per day	Restocking fee
Ex-works UK warehouse	Pound Sterling	£1,400	£100	10	£20	25%
Ex-works UK warehouse	Euro	€2,000	€100	10	€25	25%
Ex-works US warehouse	US Dollar	\$2,000	\$125	10	\$25	25%
COA US warehouse	US Dollar	\$1,500	\$25	-	-	25%

## 9 PAYMENT TERMS

9.1 30 Day Terms: If there is sufficient available credit on a Customer's account, Orders will be dispatched as soon as practicable and, unless agreed otherwise in writing, all invoices issued by the Customer shall fall due 30 days from date of invoice.

9.2 Proforma Terms: Full payment of proforma invoices must be received by the Company in the form of cleared funds within five Working Days of receipt of the proforma invoice. Goods will be dispatched only upon receipt of payment in full from the Customer. The Company reserves the right to unreserve stock if a proforma invoice remains unpaid after 15 Working Days of receipt of the invoice.

9.3 It is the sole responsibility of the Customer to verify the specification of made-to-order Goods as outlined in the Order Confirmation provided to the Customer.

9.4 If a made-to-order item meets the specification agreed to in advance on the Order Confirmation, such Goods may not be returned or exchanged under any circumstances.

9.5 Invoices that are not disputed within 20 days of invoice date are conclusively deemed accurate.

9.6 Customer shall pay the undisputed portion of the fees promptly and provide written details specifying the basis of any dispute, to the reasonable satisfaction of the Company.

9.7 For non-stock (made-to-order) items, a non-refundable 50% deposit shall be payable at point of Order, and a signed copy of the Order is required, prior to the commencement of manufacture, unless otherwise agreed.

## 10 PROPERTY AND RISK

10.1 Save where otherwise agreed or specified in this Contract, the risk of loss or damage to the Goods passes to the Customer upon delivery.

10.2 Any Goods delivered to the Customer remain the property of the Company until payment in full of all amounts due to it from the Customer have been received by the Company.

10.3 Subject to clause 10.4, where Goods have been provided on credit terms, the Customer may resell or use them in the ordinary course of its business (but not otherwise) before the Company receives payment for the Goods. However, if the Customer resells the Goods before it has paid the Company for them in full:

- (a) it does so as principal and not as the Company's agent; and
- (b) title to the Goods shall pass from the Company to the Customer immediately before the time at

which resale by the Customer occurs.

10.4 If, before the Customer has paid the Company for any Goods, an event of default occurs as listed in clause 15, then:

- (a) the Customer's right to resell the Goods as set out in clause 10.3 ceases immediately; and
- (b) the Company may at any time:
  - (i) require the Customer to deliver up all Goods in its possession which have not been resold; and
  - (ii) if the Customer fails to do so promptly, enter any premises of the Customer or of any third party where such Goods are stored in order to recover them.

10.5 If ten Working Days after the day on which the Company notified the Customer that the Goods were ready for delivery the Customer has not accepted delivery of them, the Company may resell or otherwise dispose of part or all of the Goods and, after deducting reasonable storage and selling costs, account to the Customer for any excess over the price of the Goods and/or charge the Customer for any shortfall below the price of the Goods, at the Company's election in its sole discretion.

## 11 RETURNS

11.1 The return of all Goods needs to be preauthorised by the Company.

11.2 All returns will be at the Customer's expense unless the Goods are faulty.

11.3 No returns will be accepted after 28 days from the invoice date.

11.4 Made-to-order items may not be returned unless they are faulty or not as described.

11.5 All returned Goods that are not faulty should be in their original unopened packaging and fit for resale. The Company will not refund Goods whose packaging is opened and/or which are not fit for resale in the Company's opinion.

## 12 SPARE PARTS

The Company may, in its sole discretion, hold a selection of spare parts for discontinued products for a limited period from the date of issued product discontinuation, but shall have no obligation to do so.

## 13 UNEXPECTED EVENTS

If the Company is prevented from carrying out its obligations to the Customer by a cause beyond its reasonable control, including fire, flood, storm, failures of sub-contractors or transport, industrial action, epidemic or pandemic, or acts of God,

# TERMS AND CONDITIONS

---

	including without limitation any COVID-19 related disruption, the Company shall not be liable for any failure or delay.	Goods contain defects attributable to the Company, the reasonable costs of re-delivery incurred by the Customer will be refunded
14	<b>TERRITORY AND INTERNET SALES</b>	
14.1	A Customer who wishes to market and sell the Goods digitally or online may only do so where they hold stock of the Goods to be sold, or they display the Goods in a physical, bricks and mortar showroom or retail space which is accessible to the public during normal working hours.	15.4 All terms, conditions and warranties implied by law, trade use or otherwise (including but not limited to any warranties as to quality or fitness for purpose) are excluded to the extent permitted by law. The Customer, by entering the Contract, acknowledges that the only warranties are those given expressly by the Company in this Contract.
14.2	The use of the Company's trademarks and other intellectual property in marketing, digitally or otherwise, including Online Advertisements (as defined in 14.3 below), is strictly prohibited without the Company's express permission in writing, and in all cases must adhere to the Company's Online Brand Guidelines as published on the Tom Dixon Trade Portal from time to time.	15.5 Under no circumstances will the Company have any liability to the Customer for any loss or damage (whether direct, indirect or consequential and whether in contract or in tort) except as expressly stated in this Contract. This shall not relieve the Company from its legal liability for death or personal injury which is due to the negligence of the Company
14.3	The Customer shall refrain from making active sales of the Goods to purchasers situated in a country (the Restricted Territory) outside the country to which the Goods are supplied (the Territory) provided the Restricted Territory is outside the European Economic Area. If the Restricted Territory is within the European Economic Area, this restriction shall apply in those Restricted Territories within the European Economic Area which the Company has reserved to itself and/or one of its distributors, in its sole discretion. For these purposes, active sales shall be understood to mean actively approaching or soliciting purchasers, including, but not limited to, the following actions:  (a) visits; (b) direct mail, including the sending of unsolicited emails; (c) advertising in media, on the internet or other promotions, where such advertising or promotion is specifically targeted at purchasers outside the Territory; (d) online advertisements addressed to purchasers outside of the Territory and other efforts to be found specifically by users outside the Territory, including the use of territory-based banners on third party websites and paying a search engine or online advertisement provider to have advertisements or higher search rankings displayed specifically to users outside the Territory (Online Advertisements); and (e) advertising or promotional material in any form, or translations of the Customer's website into a language other than an official language of any country forming part of the Territory, that the Customer would not reasonably carry out but for the likelihood that it will reach purchasers outside the Territory.	16 <b>DEFAULT</b> 16.1 If the Customer: (a) commits a breach of contract, or (b) fails to make a payment on the due date; or (c) becomes insolvent or has a receiver appointed,  the Company shall be entitled either to suspend the supply of Goods or, at its option and in its sole discretion, to cancel this Contract and repossess any Goods for which payment has not been received in full.
14.4	Permitted active marketing and sales in Restricted Territories must be in the local language and currency.	16.2 The Company shall also have the rights set out above if it reasonably considers that any of the events mentioned (a), (b) or (c) above are likely to occur.
14.5	The Customer shall refrain from making active sales of the Goods to online purchasers via third party websites which carry their own name and logo, including unions and market in places, such as Amazon, eBay and Alibaba.	17 <b>SEVERANCE</b> 17.1 If any provision or part-provision of this Contract is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. 17.2 If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this clause shall not affect the validity and enforceability of the rest of this Contract.
15	<b>GUARANTEES AND LIABILITY</b>	18 <b>DIVISIBILITY CLAUSE</b> 18.1 This Contract is divisible. Each delivery made hereunder shall be deemed to arise from a separate contract and may be invoiced separately. Any invoice for a delivery shall be payable in full in accordance with terms of payment provided for herein, without reference to and notwithstanding any defect of default in delivery of any other instalment. All Goods offered by the Company are supplied expressly upon these terms with no additions or modifications
15.1	The Company will have no liability to the Customer or any third party if the Customer does not comply in all respects with the Company's instructions in relation to the product.	19 <b>GENERAL</b> 19.1 In this Contract, a Working Day shall mean a day other than a Saturday, Sunday or public holiday, on which clearing banks are open for non-automated commercial business in the City of London.
15.2	If the Customer immediately notifies the Company, as soon as it becomes aware of any defect in the Goods which appears within one year of delivery, the Company will, at its option and in its sole discretion, either repair or replace any Goods found to be defective due to faulty manufacture or materials supplied by the Company.	19.2 The Company has the right to sub-contract its obligations.
15.3	Where a defect has been notified, the Customer will, if so requested by the Company, return the Goods to the Company at the Customer's expense. If the Company subsequently confirms that the returned	19.3 This Contract shall be governed by the laws of England and Wales. 19.4 Any dispute between the parties shall be finally determined by the courts of England and Wales and the parties agree to submit to the jurisdiction of those courts. 19.5 The price list is subject to printer's error. The Company disclaims any liability for typographical errors and omissions in this price list.
